As members of the East Chilliwack school community, it is our responsibility to learn and practice appropriate behaviour. It is important that a positive and supportive learning environment is promoted throughout the school: one that encourages mutual respect and expectations to guide conduct in the classroom, the school, and school functions.

East Chilliwack Elementary school promotes the values expressed in the **BC Human Rights Code** respecting the rights of all individuals in accordance with the law – prohibiting discrimination based on race, colour, ancestry, place or origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation or gender identity or expression, and age – in respect of discriminatory publication and discrimination in accommodation, service and facility in the school environment."

DEFINITIONS:

<u>Bullying behavior:</u> a pattern of repeated aggressive behavior, with negative intent, directed from one person to another where there is a power imbalance.

Bullying behavior is a type of harassment and intimidation. This aggressive behavior includes physical or verbal behavior, and is an intentional and purposeful act meant to inflict injury or discomfort on the other person. There are three critical conditions that distinguish bullying from other forms of aggressive behavior including:

- 1. *Power*: involves a power imbalance. Individuals who bully acquire their power through physical size and strength, including status within the peer group, and/or by recruiting support of the peer group.
- 2. *Frequency*: is repeated over time. Bullying is characterized by frequent and repeated attacks. It is this factor that brings about the anticipatory terror in the mind of the person being bullied that can be so detrimental and can have the most debilitating long-term effects.
- 3. *Intent to harm*: is intended to hurt. Individuals who bully generally do so with the intent to either physically or emotionally harm the other person.

<u>Cyber bullying</u>: bullying behavior which is carried out through an internet service such as email, chat room, blog, discussion group or instant messaging. It can also include bullying through mobile phone technologies and new internet technologies in the future.

Harassment: any unwelcome or unwanted act or comment that is hurtful, degrading, humiliating, or offensive to another person is an act of harassment. Of particular concern is such behavior that persists after the aggressor has been asked to stop.

Any of the following behaviours could be considered harassment: condescending treatment that undermines another's self-respect, name-calling, teasing, disrespectful comments, gossiping, spreading malicious rumours, "dirty" looks, social ridicule, public embarrassment,

social isolation ("freezing out" or rejecting others), exclusion from a group, threatening to withdraw friendship, repeated unwanted communication, unwelcome jokes, innuendoes, insults, or put downs; taunts about a person's body, disability, religion, attire, age, economic status, ethnic or national origin; insulting graffiti directed at an individual or group; unwanted and uninvited sexual attention, particularly when it is intimidating, hostile, or offensive to the recipient.

<u>Intimidation</u>: Intimidation is the act of instilling fear in someone as a means of controlling that person.

For example, any of the following behaviours could be considered intimidation: verbal threats: threatening phone calls, threats of violence against a person or property •physical threats: showing a weapon, jostling, threatening to punch, stalking or following • defacing or stealing victim's property • daring or coercing victim to do something dangerous or illegal • extortion (demanding payment or goods for a victim's safety) • inciting hatred toward a victim • setting up a victim to take the blame for an offence

<u>Safe schools</u>: schools in which members of the school community are free of the fear of harm, including potential threats from inside or outside the school. The attitudes and actions of students, staff and parents support an environment that is resistant to disruption and intrusion, and enables a constant focus on student achievement.

<u>Caring schools</u>: schools where it is known that a sense of belonging and connectedness – not just for students, but for everyone in the school community – is a necessary element in the creation and maintenance of a safe learning environment. Caring schools are ones in which members of the school community feel a sense of belonging and have opportunities to relate to one another in positive, supportive ways. All aspects of school life embrace and reflect diversity. The school is an inviting place for students, staff, parents and visitors. Staff members make conscious and concerted efforts to help other members of the school community feel connected.

Orderly schools: Schools that are free from chaos and confusion, and alive with the sights and sounds of purposeful learning activities. Routines for repetitious activities are well established so students' minds and bodies are free to focus on the learning and development work at hand. A businesslike atmosphere exists, yet there is creativity and fun in abundance. Everyone in the school has work to do and does it in a timely way – and in a way that doesn't interfere with the learning and development of others. Everyone feels a sense of meaningful accomplishment, and feels the school is a good place to be. All members of the school community are informed about and exercise their rights and responsibilities as school citizens.

BC HUMAN RIGHTS CODE:

The BC Human Rights Code prohibits discrimination on the basis of an individual's or a group's race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, or sexual orientation.

The BC Human Rights Code states that two of its purposes are to

• "foster a society in British Columbia in which there are no impediments to full and free participation in economic social

political and cultural life of British Columbia" and

• "promote a climate of understanding and mutual respect where all are equal in dignity and rights."

Students' feelings of safety and belonging, including freedom from discrimination, can seriously affect their ability to learn in school. As the Safe Caring and Orderly Schools: A Guide states, "schools should be places where students are free from harm, where clear expectations of acceptable behavior are held and met, and where all members feel they belong.

CONCLUSION:

This Code of Conduct is sensitive to the fact that some students have disabilities that interfere with their ability to understand or follow the school's expectations. Special considerations may apply to students with diverse needs who are unable to comply with expectations due to having a disability of an intellectual, physical, sensory, emotional or behavioral nature. Whenever possible and appropriate, consequences for breaches of a code will be restorative in nature rather than punitive. The school will take all reasonable steps to prevent retaliation against a student who has made a complaint about a breach of the Code of Conduct. As students remember and follow the guidelines in this Code of Conduct, they will help to create and maintain a safe, caring and orderly place to learn at East Chilliwack Elementary
